

Participate in a Rescue Operation

This unit of competency involves the skills and knowledge required to participate in rescue operations as a member of a rescue team; it underpins specialist rescue operations. This includes a wide range of rescue and environmental situations which may incorporate industrial, rural, bush and extreme environmental conditions.

Typically, personnel performing these roles have completed induction or recruitment training and are commencing work as a member of an operational team. They will work under supervision in a team but may be responsible for completing singular tasks relating to a rescue.

It is applicable to personnel from the emergency services, volunteer organisations and/or associated industries.

The skills in this course are applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice. No licensing, legislative or certification requirements apply to this unit at the time of publication.
