Undertake Vertical Rescue Course

This course contains the skills and knowledge required to undertake vertical rescues in a range of emergency situations in natural and manmade environments. It includes a range of vertical rescue situations, preparing and responding to rescue situations, assessing rescue scenes, establishing vertical rescue systems and performing in and terminating rescues. The course is applicable to personnel from the emergency services, volunteer organisations and associated industries.

The skills in this course are applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice. No licensing, legislative or certification requirements apply to this unit at the time of publication.
